

Information and Communication Technology

Acceptable Use Guidelines

Wantirna Primary School (WPS) is providing students access to the school's electronic network. This network includes the Education Department internet access, computer services, video conferencing, computer equipment, mobile devices and related equipment/software for education purposes. The purpose of this network is to assist in preparing students for success in life and work in the 21st century by providing them with electronic access to a wide range of information and the ability to communicate with people throughout the world. This document contains the expectation for students' acceptable use of the WPS electronic network. Please read thoroughly, sign and return to the school.

This document will be signed by all students from Foundation - Year 6. This agreement is for the duration of your child's education at Wantirna Primary School.

General Unacceptable Behaviour

- Students will not harass another person. Harassment is **persistently** acting in a manner that distresses or annoys another person. When a student is told by a person to stop sending messages, they must stop.
- Students will not knowingly or recklessly post false or defamatory information about a person or organisation.
- Students will not use language that is inappropriate on an educational setting.
- Students will not abuse network resources such as sending chain letters or 'spamming'.
- Students will not display, access or send offensive messages or pictures.
- Students will respect others when they talk to and work with them online and never take part in online bullying, including forwarding harmful messages and supporting other in inappropriate or hurtful online behaviour.

Email and World Wide Web

- Students will follow all teacher instruction regarding the use of the internet and email.
- Students will always use the internet and email in an responsible manner
- Students will ensure that any email they send does not contain inappropriate content
- When using the internet, students will only access appropriate information, which is relevant to their work. Students will make no attempt to access inappropriate material.
- Students will not go looking for rude or offensive sites
- Students will ask their teacher to help them get permission if they want to use information or picture from the web.
- Students will think carefully about what they read on the internet, question if it is from a reliable source and use the information to help them answer any questions (they should not copy and paste the information as their answer).
- Students will talk to their teacher or an adult if:
 - a) They need help online
 - b) They are not sure what they should be doing on the internet
 - c) They come across site which are not suitable for our school

- d) Someone writes something they don't like, or makes them and their friends feel uncomfortable or asks them to provide information that they know is private.
 - e) They feel that the welfare of other students at the school is being threatened.
- Students agree to use online classroom access and communication tools such as wikis and blogs to enhance their ability to access classroom curriculum material. Students will not include unsuitable material or inappropriate language while using these systems.
 - Group pictures without identification of individual students are permitted. Student work may be posted with student's first name only.

Personal Safety

- Students will not share personal contact information about themselves or other people. Personal contact information includes address, telephone or school address.
- Students will promptly disclose to a teacher any messages received that are inappropriate or makes the students feel uncomfortable.
- Students will only use their first name on the World Wide Web and email communications (students should understand the importance of not including surnames and addresses or giving out personal details). Students will respect the privacy of teachers and fellow students by not giving out their personal details or reading their email.

Hardware and Peripherals

- Students will take great care of all ICT equipment in the school. This includes computers, interactive data panels, projectors, digital cameras, iPads, printers, microphones and headphones.
- Students will use the technology at school for learning, use the equipment properly and not interfere with the work or data of another student.

Software and Files

- Software is available to students to be used as an educational resource. No student may install, upload or download software without permission from the school.
- Students will not bring or download unauthorised program, including games, to the school or run them on school or their personal computers.
- Authorised teachers can access files stored on the school network. Routine maintenance and monitoring of the WSS electronic network will be carried out. Students should not expect that files stored on school servers are private.

Video Conference

- Video conferencing is a way that students can communicate with other students, speakers, museums etc. from other parts of the country and the world. With video conferencing equipment students can see, hear and speak with other students, speakers, museum personal, etc. in real time.
- Video conference sessions may be videotaped by WPS staff or by a participating school involved in the exchange in order to share the experience.
- Students' voices, physical presence and participation in the video conference are transmitted to participating sites during each session. Rules and procedures relative to acceptable use and behaviour by students apply during all video conference sessions.

Mobile/Digital Devices

- Students will only use the devices for learning purposes as directed by the teacher.
- Students will act responsibly and not use the device to find, create or send information that may be harmful, inappropriate or hurtful
- When using a mobile devices such as a iPad students will:
 - a) Only take photos and record sound or video when it is part of a class or lesson and you have teacher approval
 - b) Seek permission form individuals involved **before** taking photos, recording sound or videoing them (including teachers).
 - c) Seek teacher permission before uploading any content to websites (e.g. blogs)

This Acceptable Use Guidelines for Mobile Devices also applies to students during school excursions, camps and extra-curricular activities.

Wantirna Primary School uses a four step consequence system in relation to ICT use at our school.

- * Step 1: The device can be taken away for a session or for the rest of the school day
- Step 2: The device is taken away and kept with the Principal until a parent/guardian picks it up.
- Step 3: The student's privilege of using a BYOD device at school will be removed for a period of time
- Step 4: The student may be banned from using a BYOD device for an extended period of time.
- In consultation with the ELearning Leader, students will complete a reflection document which will be kept on file permanently. Parents may be contacted at the teacher's digression.
- For extreme breaches of use, students may be accelerated to step 3 or 4 immediately.

ICT Acceptable Use Agreement

Student Section

Student Name: _____

Class: _____ Date: _____

I have read the Wantirna Primary School ICT Acceptable Use Guidelines. I agree to follow the rules contained in the guidelines.
